# Manual call point with SelfVerify - BF-501

Interactive fire detection systems Product datasheet

#### **Features**

- Manual call point for use in harsh environmental conditions
- Weatherproof
- Corrosion resistant GRP
- Protection degree IP66 and IP67
- Short circuit isolator in each unit
- Automatic addressing
- Proven technology
- With SelfVerify function for reduced maintenance/testing and increased reliability
- Designed to meet the requirement of the major maritime classification societies

## **Applications**

BF-501 is a manual call point for use in harsh environmental conditions. The call point has been designed for use with Autronica's interactive fire detection systems, and comprises the SelfVerify function. This function ensures the highest grade of reliability and the lowest degree of manual testing, because all units comprising this function are automatically self-tested once every 24 hours.

The high IP degree and mechanical strength of the enclosure make the call point suitable for outdoor applications in industrial, maritime and offshore installations.

There is also a BF-501/N version for use in hazardous area zone 2. It must be connected to the BSD-310/N loop driver, but does not require an isolator/barrier unit.

The call point must be installed according to local regulations, which normally means along escape routes, landings and exits.

#### **Principle**

- Break glass element
- Reset when a new glass is mounted

**SelfVerify:** The call point's ability to initiate alarms is regularly checked.

#### **Versions**

BF-501	Manual call point with SelfVerify
BF-501/EX*	Manual call point with SelfVerify.
	Exia-version for use in all zones
BF-501/N*	Manual call point with SelfVerify.
	Exic-version for use in zone 2 only

Technical specifications		
Weight	1,2 kg	
Material	Glass, Reinforced polyester	
Colour	Red	
Voltage	10 - 27 VDC	
Current consumption Stand by:	0,3mA	
Environm. requirement	EN 54	
Degree of protection	IP66	
Working temperature	- 20 - + 70°C	
Cable inlets	2 x M20	
Maintenance	Replace broken glass	
Service	Replace if faulty	
Approvals	See website	

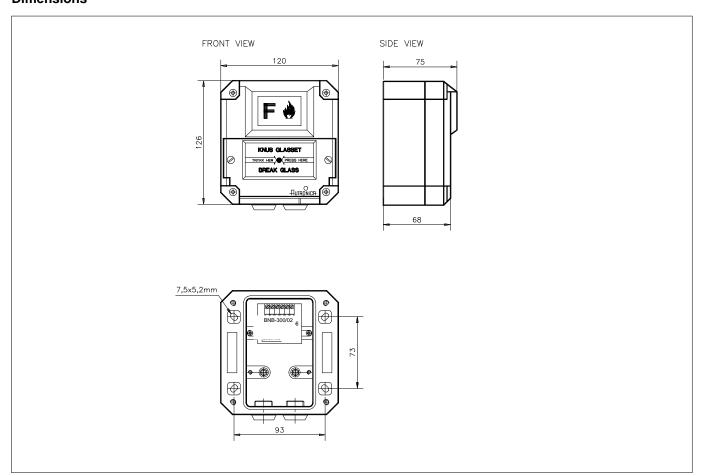

Part number	Description	
116-BF-501	Manual call point	
Accessories		
116-4890-022.0001	Lift flap PC	
116-4890-022.0010	Lift flap SS	

#### **Connections**
